about chumps he will name the man demagogic clap-trap, resorted to for the sole purpose of misleading the people, by holding out a false hope. "International agreement" was an unheard of thing in the world up to the time that the American people awakened to the realization that they had of 1873. Senator Allison of Iowa, who is posing as a candidate for the presidency, was a member of the British conference and argued in that body in favor of universal free coinage, 16 to 1. He is now talking through his hat for honest money. Does he think that Europe is going to act on this question at any time within ten or twenty years? He knows better. He said in a speech at Marshalltown last week that the coinage act of 1873 elimbeen robbed by the demonetizing act week that the coinage act of 1873 climinating the silver dollar was a "mistake." In such case the rectification of the mistake by restoring the silver dollar ought to give him no great Chicago. Oh no, dear rabid Populists, concern. But he declares that free not at the instigation of the gold-bugs. silver coinage would scale down all debts 50 per cent, and he asks if there is "a man with soul so dead as to ask congress to be gullty of this in-Italy now hops up and demands that justice." By all accounts there are a good many men in Iowa whose souls are so dead that they regard this as ing the revolution in that country. quite a reasonable request to make of congress. It is not known, however, less money than that. that any holders of mortgages or other creditors are among them.

Whatever may be the theoretical merits of international bimetallism. it is too nebulously remote to talk about now, under the stress which is thing. pressing the life out of American enterprise and industry. The question of silver is pressing for an answer by dreams of possible agreements with other countries. International bi-The Irishmen of America are still metallism will come sooner by prompt

2. If not, will good and silver together provide an excess?

3. If not, is any nation desiring commercial relations with all the world—as we and England do—institled in restricting only money having the indorsement should have a good one, and then on and England do—justified in restricting only money having the indorsement the amount of primary money in the interest of any class of its citizens?

4. Will China, Japan and others, as native the lends of whose editors ought to the heads of whose the heads of whose editors ought to those follow India in restricting silver and finally demonetize it as we have, and if so, what further rise in gold may we anticipate from the whole world's demand upon it as money? And if it shall appear that the gold interest alone is work is a regular buzz. That paper that silver with it is not even a metal.

BRAVE BUT CUTE JAPAN.

Japan has not yet answered the joint note of protest against the treaty of Shimonoseki by the Russian, French and German ministers. The protestants are said to be still inclined to take a pacific view of the situation, ership in the Orient by permitting to abuse and misrepresent Russia to obtain predominance in eastern Asia the protesting powers are doomed to disappointment. The question is not merely one of politics, but involves the larger question of national Globe-Democrat from Washington reself-preservation for Japan. The rad- lates some interesting developments in ical instinct of the Japanese people the foreign policy of the United States will allow no compromise in favor under the general name and siyle of Europe whatever may be the conof Europe, whatever may be the consequence of refusal.

ting out an Englishman. The Guthrie Leader remarks that Corbett did it for

papers is to be put up a cent on each paper. The poor old Kansas City papers wil be forced to do the same .

A Catholic Organ's Say.

The clearest and most emphatic statement of the operations of the A. P. A. in the large cities we see going the rounds of the papers credited to the Western Watchman, the Catholic organ of St. Louis. It shows the difference between Catholic politics and the Catholine religion. The A. P. A., or nothing else, can ever shake anybody's religious faith, but according to the Watchman they can help in separating the chaff from the wheat. The Watch-

"The legislature of Nehraska has just enacted a law that places in the hands of an A.P.A. commission the power to remove all the Catholics from the pubcan cut out of it again a dozen times | he service in the city of Omaha. The

law is especially directed against the Irish on the police force of that city. We don't know who these Irish are on the police force of Omaha; but if they are no better than the Irish on the police force we don't care a rap how soon they go. In Chicago and St. Louis the Democratic tickets were under Irish saloon keepers and tough Irish politicians; and we hope they will never be brought to the surface again. If the A. P. A. do nothing but clear the police force of our big cities of Irish uninformed brutes who never go to mass, and keep out of boodle city councils izzy and rascally Irish rum selbers, they will have our blessings and the blessing of all dacent Catholics in the country. Did anyone ever see such a ticket as was presented to the Democratic of this city on last Tuesday. It is any they were baptised."

It says there are 200 Catholics on the police force of St. Louis, and that not if fity of them go to mass. It says they are a disgrace to any church. It is are the leavent leave the republics. He constituent of the serious description of the summer. Nearly the entire ticket for the lower house was made up of Catholics in name. Many of them never felt the touch of holy water since they were baptised."

It says there are 200 Catholics on the police force of St. Louis, and that not if fity of them go to mass. It says they are a disgrace to any church. It is are the leaver the layer the said that not if ity of them go to mass. It says they are a disgrace to any church. It is

Irrigation in Southwestern Kar

From the Kansas City Gazette. Our esteemed corespondent in Garden City, Kan., whereof he writes, and words on irrigation.

We are mistaken about Mr. Trickett's little reservoir to be filled by a windmill pump, supposing the Item meant the ordinary deep upland prairie well, instead of a mere hole in the roof of the United States, and any but a of Walloe county. Usually, however, flow of would have resented it as such. The gravel, through which the water pene-

time is greater now by one-half. If sidered precarious securities when is- utilized in the irrigation of many acres, in appreciating gold by the demonetication of silver, the price, the length England which government will bring the nead stream of the Republican river and Little and Big Beaver creeks,

increased proportionately then De-pew's and Eckels' talks would have This practice of using gunboats to whole bottom land, when the main chan had more sense in them.

None but foels or knaves can hold that the demonetization of one-half of views it, but it is not only repugnant from bluff to bluff if they came near to-

Oun Garden City friend furnishes some valuable information as follows: This would not be impossible at all John V. Farwell, one of Chicago's greatest men, in commending the stand taken by the silver papers of the country, closes his letter with the following pertinent inquiries which Depew and Eckels and all other cuckoos might study with benefit:

1. Is gold alone sufficient primary money for the world?

2. If not, will gold and silver together provide an excess?

With a common pump such as is used for ordinary farm purposes, but with a demonstrate a line of assumption that gold is the money reprovide an excess?

With a common pump pump such as is used for ordinary farm purposes, but with and Europe getting on its gold basis. Let gold go to a premum and Europe with it. We only wanth the earth to trade with, not Europe, Here is a losing trade for us stroke, and 50 to 100 gallons per minute, it is not only possible but has been in practical operation in Finney country for several years. With such a pump trade arguments are a line of assumption that gold is the money reprovide an excess?

With a common pump such as is used for ordinary farm purposes, but with and Europe getting on its gold basis. Let gold go to a premium and Europe with it. We only wanth the earth to trade with, not Europe, Here is a losing trade for us stroke, and 50 to 100 gallons per minute, it is not only possible but has been in practical operation in Finney country for several years. With such a pump trade arguments are a line of assumption that gold is the money reprovide an excess?

With a common pump such as is used for twelve inch pump discharging two or three gallons at a losing trade for us stroke, and 50 to 100 gallons per minute, it is not only possible but has been in practical operation in Finney country for several years. With such a pump recent wasting water, and also to rove meats. We export less of our most of which we had better make the continuence of hers.

We can the following proved an excess in the continuence of the such continuence of the such continuence of the such charging twenth the earth to trade with, not Europe. Leve

mand upon it as money? And if it shall around. With the Star the circular appear that the gold interest alone is benefitted by such restriction, what course, shall the United States take as the richest and most populous nation on the earth?

INTERNATIONAL RIMETALLISM.

All talk of international agreement is lation of over 150 souls, where each family can have a cow, a horse or two, som epigs, an orchard, garden, etc. To som epigs, an orchard, garden, etc. To do this, however, something else besides corn, wheat
